

3rd

*Pre-Algebra
Quarter Project*

Survey at least 100 people and make a circle graph of their responses. Your question should have a one-word response. You will need to make up a survey form and record their responses. Use a protractor and a ruler to make an accurate graph on a half size poster board (14 x 22 inches). You will be graded on the following:

- Actual survey
- Neatness of graph
- Accuracy of graph
- Color
- Overall appearance

Use the following table to prepare your graph:

Choices	Number of Students	Fraction of Total	Percent	Angle

Survey Questionnaire - Due February 25

Completed Survey - Due March 4

Completed Table - Due March 7

Completed Graph - Due March 11

Final Project (Colored Graph and Table on poster board) - Due March 18
