

**Parent Consent Form To Use Children Under 18**  
**As Participants in a Science Fair Project**

Date:

Dear Parents,

For my school science project this year I am using children under 18 and I would like you use your child as a participant. Therefore, I need to get your permission to do so. I am not doing anything or using anything that would be harmful to people. I have gotten permission, by signature, to do my project using people from my science teacher, my principal, and a psychologist.

Here is what I am doing for my project and how I am using people.

If what I am doing is all right, please sign below that I can use your child in my science fair project and date it. Please return it to me.

Thank you,

\_\_\_\_\_  
(signature of student doing the science fair project)

-----  
I give my permission to have my child participate in \_\_\_\_\_  
\_\_\_\_\_ science fair project. (name of student doing  
science fair project)
